Office Action Summary	Application No. 10/657,936	Applicant(s) HUANG, SUNNY E.L.	
	Examiner Harry A. Grosso	Art Unit 3727	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species:
 1. Figures 1-4
 2. Figure 5
 3. Figure 6
 4. Figure 7
 5. Figure 8
 6. Figures 9-12
 7. Figures 13-14.

2. The species are independent or distinct because the frame structures are distinct having different designs not capable of use together.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 1 appears generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after

the election, applicant must indicate which are readable upon the elected species.

MPEP § 809.02(a).

3. Because these inventions are independent or distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. During a telephone conversation with Mr. Paul Denk on February 22, 2006 a provisional election was made without traverse to prosecute the invention of Species 1, Figures 1-4, claims 1-5 and 11. Affirmation of this election must be made by applicant in replying to this Office action. Claims 6-10, 12 and 13 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 2 and 5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Both claims 2 and 5 appear to be missing verbiage making their meaning unclear.

Claim Rejections - 35 USC § 102

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

8. Claims 1- 5 and 11 are rejected under 35 U.S.C. 102(b) as being anticipated by Kellogg et al (5,971,188) (Kellogg).
9. Regarding claims 1 and 2, Kellogg discloses a collapsible container with a framework of resilient material that can be folded into a flattened position, the framework forming the sides and the base of the structure (Figures 1-4, 31-36, column 1, lines 58-58, column 3, lines 54-58).
10. Regarding claim 3, the framework is resilient steel (column 3, lines 54-58).
11. Regarding claim 4, the fabric is a polymer material (nylon) and may be cloth or mesh (column 3, lines 62-64).
12. Regarding claim 5, the container is flattened to form a laminar structure (Figures 31-35, column 6, lines 12-29).
13. Regarding claim 11, the fabric material forms a cowl that closes the edge of the sidewalls for the framework (column 3, line 65 to column 4, line 3)

Conclusion

14. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Zheng (6,694,994; 6,360,761 and 5,975,101), Kellogg et al (6,220,998) and Ziglar (5,964,533) disclose collapsible containers with resilient frames.
